

# FUTURE CAREERS BRIDGE PROGRAM

## CAREER TEST RESULT

**PRIVATE AND CONFIDENTIAL**

**Prepared for Himal Samarawickrama**

Date taken :Jan 15 2023

ADDRESS - No. 90A, Jayamangala Rd, Nugegoda, Colombo

## ABOUT THIS REPORT

This assessment has been produced by CareerMe. It uses psychometric measures to identify your personal strengths, skills and potential vocational interests. This report can start you on the journey of matching your interests with careers.

You should find this report a valuable aid when used together with other data sources. It is not intended to be used in isolation. Take the time to discuss your results with the people who are important to you such as your family and career advisor. One of the greatest advantages is to identify areas of strengths that you should follow up.

Your personalized report is divided into several sections. The first is your occupational profile, explaining your personality in relation to the workplace. The second section is a summary of suitable IT career streams for you followed by a summary of potential occupations in other industries, based on your vocational personality type. Finally, the report recommends further steps in selecting and preparing a roadmap to reach your desired career.

The report shows high accuracy if the questionnaires have been answered honestly. However, it will be invalid if there has been a deliberate attempt to deceive. This report is designed to expand your career options and give you many paths to explore that match your interests.

## YOUR OCCUPATIONAL PROFILE

Our career test measures 6 types of interest: Realistic (R), Investigative (I), Artistic (A), Social (S), Enterprising (E), and Conventional (C). Your total scores for the 6 areas are shown below. The interest areas with the three highest scores are used to generate your occupational personality type (or RIASEC type). This is represented as a three-letter code called the Interest Code.

## YOUR INTEREST CODE

**Conventional - C - 89%**

**Enterprising - E - 85%**

**Social - S - 84%**

Your highest interest area is Conventional followed by Enterprising and Social.

## YOUR INTEREST CODE EXPLAINED

Your occupational personality type is a combination of the above three interest areas. A detailed explanation of your personality in relation to your highest interest area (Conventional) is provided below. Brief descriptions of your second and third highest interest areas are also present. To understand your specific combination of interests in more detail, talk to our career advisor.

### CONVENTIONAL - THE ORGANIZERS

#### Characteristics

You are organized, careful and efficient. You value structured operations, conformity and dependability. You are accurate and prefer well defined tasks and order; hence you are able to work well within large organizations. You rarely seek leadership roles but are thorough, persistent and reliable in carrying out tasks. You see yourself as responsible, orderly and possessing clerical, organizational and numerical abilities.

#### Careers

You prefer a work environment that supports organizational competencies, such as record keeping and data management. The Conventional type is suited for a wide variety of jobs in industries that thrive on systems, hierarchy, efficiency, and meticulousness. Jobs such as information security analysts and database administrators work well for these types. Even occupations such as marketing is suitable if they also have an enterprising side.

#### Likes

You prefer clearly defined procedures and rules and regulations at your workplace that keep things running smoothly. You are interested in data and things, rather than people. As a result, you like to work with the paper and computer-based aspects of a business such as accounting, record keeping, and data processing.

#### Dislikes

You tend to dislike ambiguous, unstructured activities, dealing with interpersonal issues, and activities that involve high creativity such as drawing, and painting.

#### Skills and Strengths

Working with numbers, organizing schedules, processing information, paying attention to details and business writing are your strong points.

### ENTERPRISING

The Enterprising type has high potential for leadership and working independently. This type is suited for positions such as business development, innovation, new product generation and management. They can do well as an IT services manager, business intelligence developer and product innovator.

### SOCIAL

The Social type is best suited to join positions that require interpersonal and communication skills. Dealing with others is the social type's special skill. They excel in business relationship management, customer support, human resources, training and development, recruitment and mentoring others.
